## APPLICATION PROCESSING AND ISIR SUPPORT FOR 2024 - 2025 AWARD YEAR

### Benefit

The US Department of Education, particularly the FSA (Federal Student Aid) office, underwent a significant overhaul concerning how students apply for Federal Student Aid. The FAFSA® has seen significant changes, making it easier for students to apply for Federal Aid and better connections to real-time information, such as IRS data beginning the 2024-2025 Award Year.

The changes student applicants can see (on the [FAFSA website](#)) bring significant changes to how aid is processed on the "back end" for institutions that administer students' aid.

This feature updates the CAMS application with essential changes that must be complied with for students to receive and use Federal Student Aid to pay for attending your institution. THE FSA office has introduced new terminology you may not be familiar with. Please visit [this page](#) for more details.

### Overview

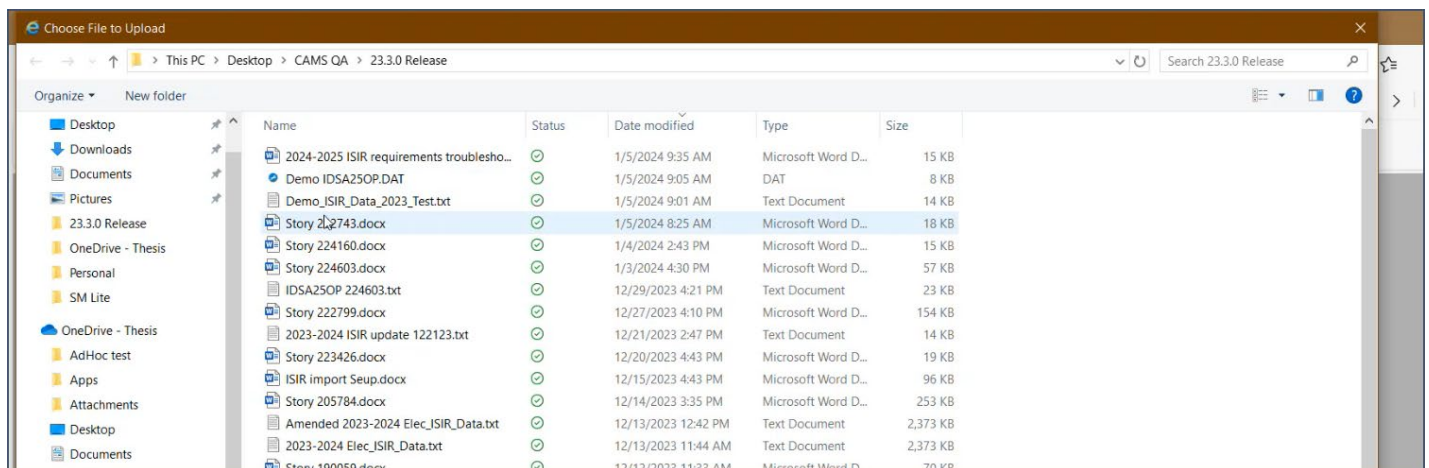

The Institution's Financial Aid Administrator (FAA) can now import 2024-2025 ISIR files received from the Department of Education and use them as part of the packaging process.

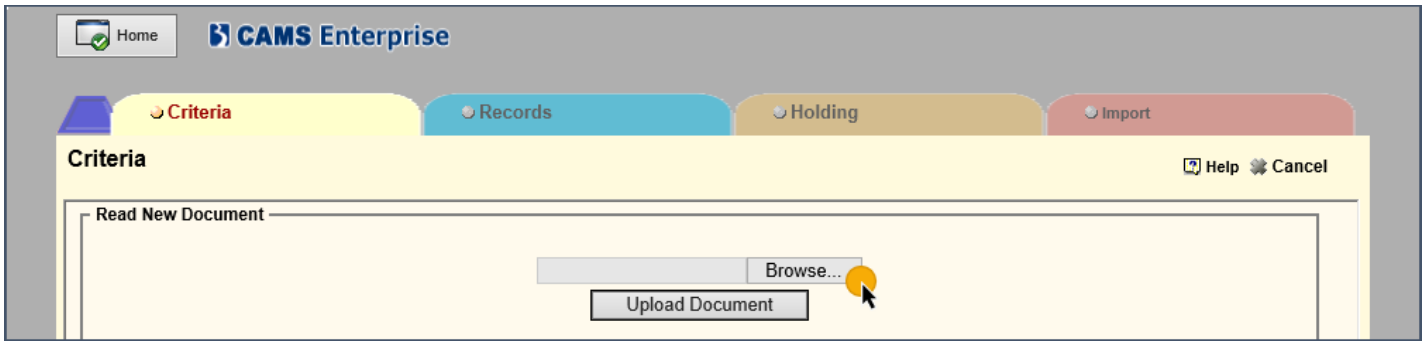

Significant changes in CAMs have occurred to this Award Year's file, including:

#### Tools > Import > Financial Aid > ISIR Direct changes

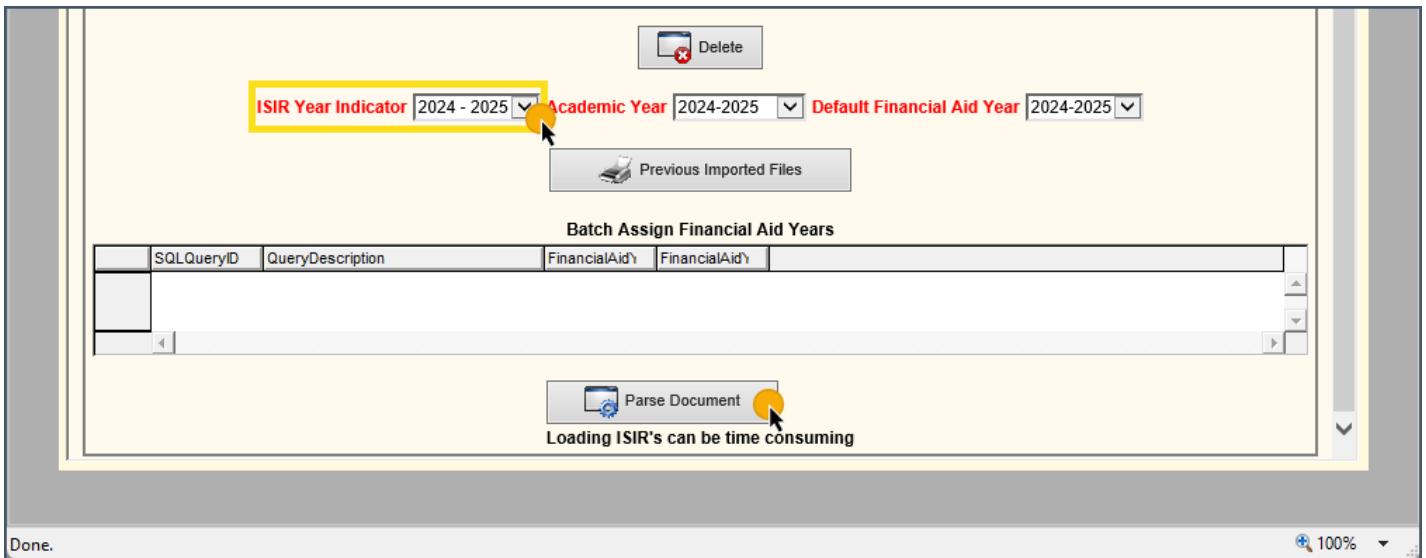

##### Criteria Tab

- Importing ISIR files will no longer require a UNC path. Institutions may store the files more conveniently now. Below is an example:

- **Important:** Set the correct ISIR Year Indicator and Academic Year before clicking the "Parse Document" button.

## Records Tab

- ISIR data on the Records tab will only show a section of the data "columns."
  - Using the "Cols" button, FAAs can navigate 50 columns at a time through additional fields.
  - The same applies to multiple rows using the "Rows" buttons.

### Import Tab

- FAAs will notice a change on the Import tab for 2024-2025.
- A "Package Enrollment Intensity" field will appear under "Package Status." Enter a percentage value of 0 to 100. Do not enter a percent sign.
  - The field operates similarly to the Package as load value does, allowing students without registered courses to be packaged.

The screenshot shows the CAMS Enterprise software interface. At the top, there is a navigation bar with a 'Home' button and the 'CAMS Enterprise' logo. Below this is a tabbed interface with four tabs: 'Criteria', 'Records', 'Holding', and 'Import'. The 'Import' tab is currently selected and highlighted in red. Inside the 'Import' tab, there is a section titled 'EDE ISIR Import'. This section contains two dropdown menus for 'Academic Year' and 'Financial Aid Year', both set to '2024-2025'. Below these are three more dropdown menus: 'Package as Load', 'Package Status', and 'Package Enrollment Intensity'. The 'Package Enrollment Intensity' field is highlighted with a red box and a text label 'Enter value 0-100'. Below these fields are two checkboxes: 'Update Status Records with ISIR Data' and 'Import All Duplicate Transactions', both of which are unchecked. At the bottom of the 'Import' tab, there is an 'Import' button with a blue circular icon.

### Financial Aid > Maintenance

#### Status Detail Tab

- On the Financial Aid Status Details tab, SAI will be the defaulted eligibility index displayed.
  - EFC is no longer calculated for 2024-2025 ISIRs (and beyond) nor used in determining Awards.
  - The Package Enrollment Intensity and other fields will populate once the ISIR is imported and marked "Active." Note that all ISIRs can be marked "Active" at once on the Records tab.

### Show EFC

- EFC is no longer calculated for 2024-2025 ISIRs (and beyond) nor used in determining Awards.
- This screenshot shows how the ISIR section looks pre-2024-2025:

The screenshot displays the 'Financial Aid Status Detail' window in the CAMS Enterprise system. The 'ISIR' tab is active, showing a form for entering financial aid data. A yellow callout box highlights the 'Show EFC:' radio button, which is selected. The form includes fields for Primary EFC (\$5,254.00), Secondary EFC, Alt Primary EFC (\$5,254.00), and % Primary EFC for Remaining Need (100). It also has a 'Show SAI:' radio button and a 'Dependent Status' dropdown set to 'Independent'. Other fields include 'Lock Packaging' (unchecked), 'Prev Bachelors Degree' (No), 'Initial Package Dt', 'FISAP Total Income' (\$75,000.00), '9 Month COA', 'Documents Complete' (No), 'Enrolled Grad/Prof' (Yes), 'Last Package Date', 'Packaged for Load' (Half Time), and 'Package Enrollment Intensity %' (0). Verification fields include 'Verification Code' (N), 'Verification Status', 'Verification Tracking Flag', and 'Pell Lifetime Limit' (No Problem). A 'Note' field is present, and a 'Resolved' checkbox is at the bottom right. The bottom of the form shows 'Total Costs' (\$0.00), 'Remaining Need' (\$-5,254.00), and a note 'Need Updated on Add/Update Only'. The window has a 'Home' button, a 'Find' search bar, and a 'Help' icon. The status bar at the bottom shows 'Done...' and a 100% zoom level.

## Show SAI

- SAI and other fields will populate once the “Active” ISIR is imported
- SAI will be the defaulted eligibility index displayed.
- For Pell award purposes,
  - If a student's SAI value imported via an ISIR import is less than zero, packaging functionality for a student's award/s assumes the value as zero. (The SAI will not present as 0.00- it will be the actual value from the file.
  - Negative SAI values can help determine other awards as it shows the students with the most financial need.
- This screenshot shows how the ISIR section looks in the 2024-2025 Award Year and beyond:

The screenshot displays the CAMS Enterprise Financial Aid Status Detail form. The top navigation bar includes Home, CAMS Enterprise, Find, and tabs for Status, ISIR, Awards, Documents, More, and ISIR Historical. The main title is "Financial Aid Status Detail".

The ISIR section is highlighted, showing the following fields:

- Show SAI:** A radio button is selected, and the SAI value is \$3,500.00.
- Show EFC:** A radio button is unselected.
- SAI Formula:** A dropdown menu.
- Dependency Model:** A dropdown menu set to "Provisional Independent".
- Student Cons and Sig:** A dropdown menu set to "Granted".
- Student Spouse Cons and Sig:** A dropdown menu.
- Student Cons and Sig Date:** A date field set to 1/1/2024.
- Student Spouse Cons and Sig Date:** A date field set to 1/1/1900.
- Parent Cons and Sig:** A dropdown menu.
- Parent Spouse Partner Cons and Sig:** A dropdown menu.
- Parent Cons and Sig Date:** A date field set to 1/1/1900.
- Parent Spouse Partner Cons and Sig Date:** A date field set to 1/1/1900.
- Lock Packaging:** A checkbox.
- Documents Complete:** A dropdown menu set to "No".
- Prev Bachelors Degree:** A dropdown menu.
- Enrolled Grad/Prof:** A dropdown menu.
- Initial Package Dt:** A date field set to 11/30/2023.
- Last Package Date:** A date field set to 12/19/2023.
- FISAP Total Income:** A text field set to \$10,000.00.
- Packaged for Load:** A dropdown menu set to "Full Time".
- 9 Month COA:** A text field.
- Package Enrollment Intensity %:** A text field set to 100.
- Verification Code:** A text field set to N.
- Verification Status:** A dropdown menu.
- Resolved:** A checkbox.
- Verification Tracking Flag:** A dropdown menu.
- Pell Lifetime Limit:** A dropdown menu.

The bottom of the form shows a "Done..." button and a zoom level of 100%.

## ISIR Tab

- Due to the considerable changes in the ISIR data layout, access the 2024-2025 Award Year and newer ISIR files via the ISIR tab.
- Filter by year to find an ISIR record.
- The Full ISIR Report button is unavailable today as the FSA has not published guidance on the print layout. To print the ISIR, click the Full Detail button.
- Once opened, print the report.

- As stated in the May 12, 2023, FSA electronic announcement<sup>1</sup>, the CAMS software must comply with the regulations; therefore, searching for "FTIM\_FTI\_Label" in the report will produce two hits. One is for the beginning tag, and one is for the ending tag.
- Following any other guidelines when reviewing sensitive tax information at institutions is crucial.

FTI is categorized as CUI//SP-TAX and may contain sensitive PII. Accordingly, all FTI must be handled—at minimum—in accordance with the confidentiality protections of Section 6103(l)(13) of the IRC and in accordance with all applicable privacy laws, regulations, and policies.

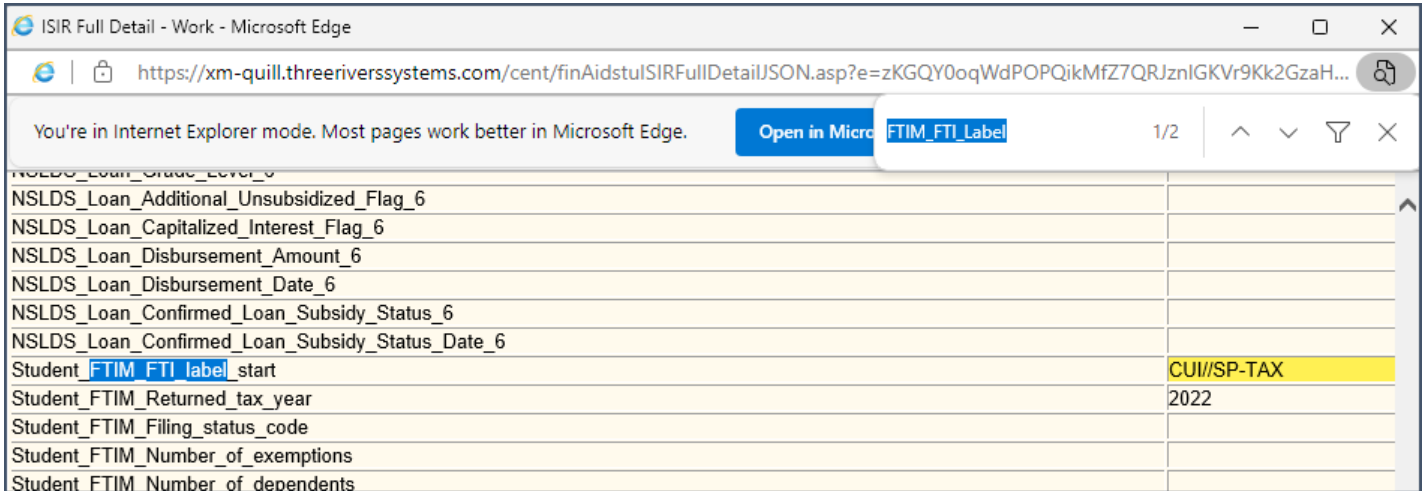

The U.S. National Archives and Records Administration (NARA) has established a CUI Registry that serves as the authoritative reference for all CUI category markings. FTI is a category of CUI and is

### Registration > Academic > Status changes

- Enrollment Intensity is a new view-only field on the Student Status Detail screen. It is system-generated and used in calculating new Pell awards.

The screenshot displays the 'Student Status Detail' screen in the CAMS Enterprise system. The interface includes a top navigation bar with 'Home', 'CAMS Enterprise', and 'Find' buttons. Below this, there are tabs for 'Status and Programs' and 'Extracurricular Activities'. The main form area is divided into two columns of fields. The left column includes fields for Term (FA-24), Enrollment Status (1ST TIME FRESHMAN), Registration Status, Campus (Main), College Level, Cost Type (Default), Student Load, Financial Aid, GPA Grouping, Student Registered (NO), Vocational Interest, Grade Catalog, Degree Seeking (checked), Institutional SAP, and Governmental SAP. The right column includes fields for Effective Date (11/17/2023), Academic Status, Alert (No), Student Level (0), Refund Type (Continuing), Max. Hours Allowed (18), Commuter (Commuter), Cohort Group, Classification, Charge Insurance, Non State Reporting, Last Date of Attendance, Student Worker, and Enrollment Intensity (100). The Enrollment Intensity field is highlighted with a red box. At the bottom of the form, there are three buttons: 'Update', 'Go To Page 2', and 'Cancel'. The status bar at the very bottom shows 'Done' and a zoom level of 100%.

### Financial Aid > Packaging > Prioritized > Award Methodology Changes

#### Award section

- Another notable change FAAs will notice is that the FSA will no longer publish PELL tables; therefore, the Award Methodology screen for Pell includes two new fields to enter PELL Yearly minimum and maximum amounts:
  - Min Yearly Pell
  - Max Yearly Pell

**Reminder:** when the typical time comes, users will NOT need to import Pell tables into CAMS.

- Financial Aid > Setup > Load Pell
- A future release will remove the Import Pell table feature, which is currently available but unnecessary.
- Only use it to import a prior year's table.

### Major/Minor section

- Due to processes no longer being able to rely on Pell tables after 2023-2024, CAMS will need additional information to perform the calculation. Therefore, FAAs will see a field called Instructional Time (WKS).
  - It should represent the instructional time for the term in weeks.
  - This field must contain a value for the system to calculate the award correctly.

- Take note of the SQL calculation on the screen. That is technically showing the Pell calculation.
- Think of it in terms of this:

**Scheduled Award:**

= Maximum Pell Award – SAI (rounded to the nearest 5)

Then:

Full-time Enrollment disbursement schedule:

= Scheduled Award / amount of quarters/terms/semesters

OR

Less than Full-time Enrollment disbursement schedule:

= (Scheduled Award \* Enrollment Intensity) / amount of quarters/terms/semesters

## Financial Aid > Packaging > Prioritized > Packaging Criteria

### Advanced Criteria Entry

- 2024-2025 ISIRs is in JSON format. This information is vital for those accessing the Advanced query function for Prioritized Packaging. The queries developed in the past may no longer work.
- Below is an example of a query to run for Pell Eligible awards.

- Copy of the text in the screenshot:

```
select Distinct fs.studentUID
from FinancialStatus fs
inner join FinancialISIR I on I.FinancialStatusID = fs.FinancialStatusID and I.activeflag = cast(1
as bit)
where fs.AcademicYearUID = @AcademicYearID
and fs.FinancialAidYearUID = @FinancialAidYearID
and Json_value(I.ISIRData,'$.Pell_Grant_Eligibility_Flag') = 'Y'
```

The screenshot shows the CAMS Enterprise Query Builder interface. At the top, there is a 'Home' button and the 'CAMS Enterprise' logo. Below this is a 'Query Builder' tab. The main window displays an 'Advanced Criteria Entry' dialog box. Inside this dialog, the 'Query Description' field is set to 'Pell Eligible'. Below this, there are several checkboxes: 'Package Query' (checked), 'Award Query' (checked), 'Budget Query' (checked), 'Financial Limit' (checked), 'ISIR Batch Job' (unchecked), and 'Financial Aid' (unchecked). A note states 'Query Must Return a Distinct List of StudentUID's'. Below the note is a text area containing the SQL query: 

```
select Distinct fs.studentUID
from FinancialStatus fs
inner join FinancialISIR I on I.FinancialStatusID = fs.FinancialStatusID and
I.activeflag = cast(1 as bit)
where fs.AcademicYearUID = @AcademicYearID
and fs.FinancialAidYearUID = @FinancialAidYearID
and Json_value(I.ISIRData,'$.Pell_Grant_Eligibility_Flag') = 'Y'
```

 At the bottom of the dialog are three buttons: 'Update', 'Test', and 'Cancel'. The bottom right corner of the application window shows a zoom level of 100%.

Financial Aid > Packaging > Prioritized > Package

Package Tab

- The labels for the Load Determination selectors have changed.
- The Packaged Enrollment Intensity is equivalent to the Package as Load value.
  - Note: The label for the Packaged Enrollment Intensity field does not change based on the Academic Year (which means for the remainder of the 2023-2024 award year, use the Use Packaged Enrollment Intensity field as though it is the Packaged as Load field.)
  - CAMS will know which load to use based on the Award Year.
  - It is system-generated and will be used to calculate new Pell awards.

The screenshot shows the 'Package Detail' form in the CAMS Enterprise system. The form is titled 'Package Detail' and contains several fields: 'Package Description' with the value 'Pell Package', 'Student Selection Criteria' with the value 'Pell Eligible', and 'Priority' with the value '0'. The 'Load Determination' section has two radio buttons: 'Use Packaged Enrollment Intensity' (which is selected and highlighted with a red box) and 'Use Student Enrollment Intensity'. At the bottom, there are fields for 'Created By' (TERRIB) and 'On' (11/30/2023 1:48:45 PM), and 'Changed By' (TERRIB) and 'On' (1/5/2024 3:01:08 PM). The interface includes a top navigation bar with tabs for 'Package', 'Initiate', 'Students', 'Methodology', 'Awards', and 'Process', and a 'Home' button. A 'Help' icon is also present in the top right corner.
